6" HOLE COVER

Adjusts to fit any diameter opening from 2" to 6". Locks into place, preventing displacement. Not intended to be used in areas exposed to vehicular traffic or heavy machinery.

Installation:

1. Insert pan head screw through top of cover into barrel of flag as shown.
1. Tighten screw until flag is tight against inside of floor opening.

Covers should be checked daily before use and re-tightened if necessary.

PART #	
HC26	hole cover, 6 inch
